

Khaled Abd Elrahman Mansour

Civil Engineer | Marine Works Specialist (Technical Office & Execution)

khaledabdelrhman1234@gmail.com | +20 114 680 9054 | Sharm El Sheikh, Egypt

PROFESSIONAL SUMMARY

A highly skilled Civil Engineer specializing in marine construction, with extensive expertise in breakwaters and marine berths. Proven track record in executing high-quality projects and creating precise shop drawings. Proficient in industry-standard engineering software, including AutoCAD Civil 3D, to deliver accurate and efficient marine designs and implementations.

CORE COMPETENCIES

- Marine Works — Breakwaters & Berths
- Site Execution
- Technical Office
- Shop Drawings
- Quantity Surveying
- Quality Control
- Technical Reporting
- Consultant & Contractor Coordination

TECHNICAL SKILLS

Software: AutoCAD Civil 3D · AutoCAD · SAP2000 · ETABS · Primavera

PROFESSIONAL EXPERIENCE

Talaat Moustafa Group (TMG) — South Med Jan 2026 – Present

Implementation Engineer · with Kashed Khair Company · North Coast, Egypt

- Manage execution of works on a large-scale national development, tracking progress against schedule and specifications.
- Coordinate daily with project teams, consultants, and stakeholders to resolve site issues and keep delivery on plan.
- Enforce quality control and compliance with drawings, specifications, and safety standards.

Kashed Khair Company Mar 2025 – Oct 2025

Implementation Engineer & Technical Office · Gergoub Port, Marsa Matrouh

- Ran site implementation together with technical-office operations, linking design output to on-site execution of marine works.
- Prepared and reviewed shop drawings and technical documentation, coordinating with teams and stakeholders.
- Monitored quality and specification compliance across construction activities.

Kateba 73 for Roads Oct 2024 – Mar 2025

Road Site Engineer & Technical Office · Future Office · Matrouh

- Managed road construction works and the associated technical documentation.
- Supervised site operations and quality control across road execution phases.
- Coordinated with contractors and stakeholders to align delivery with specifications.

EL Shrouk Jul 2024 – Oct 2024

Site Engineer — Architectural Finishes · Beni Suef

- Supervised architectural finishing works and construction activities with a focus on quality.
- Managed project timelines and site resources and coordinated subcontractors to meet targets.

EL Shrouk Jul 2022 – Oct 2022

Site Engineer · Beni Suef

- Managed construction site operations and daily execution.
- Ensured compliance with safety and quality standards and coordinated with subcontractors and suppliers.
